### endulgent facial therapies

#### organic and all-natural facial therapies

Our facials consist of a therapeutic process that includes a skin consultation, cleansing, toning, steaming, exfoliation, extractions, massage of the neck, décolleté, scalp, and facial muscles and will conclude with a mask that is best for your skin type followed by moisturizer and sunscreen.

We recommend using our indulgent facials in a series of five sessions (once every three-four weeks) to receive maximum benefits—and you'll receive a savings of 10% on all facial series purchases.
